NEWS

OUR COMMITMENT TO HEALTHCARE

We are proud to announce the completion of the physical renovations at the Inpatient Cancer Unit of Beth Israel Medical Center. Inspired by a vision of creating an optimum healing environment, Donna Karan and Beth Israel enlisted the help of architect David Fratianne and feng shui master Alex Stark to create a Sanctuary for patients and their loved ones. Roberto Dutesco also donated photographs placed throughout the area. The images here depict the renovations. As a champion of patient advocacy, Urban Zen could not be more excited about this first step towards patient care. The renovations are only one part of the campaign for Well-Being. As reported in the Huffington Post, "Donna Karan, in conjunction with her Urban Zen Foundation, is developing [a] unique program which provides support to cancer patients and their families, as well as the hospital staff itself."
